

Progress report №4.

Sanzhar Issabekov 200103158

Bexultan Saifullin 200103484

1) What we did?

- Created user repository and user go files in order to work with database;
- Created test files for test cases;
- Created store_test file;
- Created first sql files and database.

2) Future plans

For the next steps, need to continue with working database system. Cause it still has some kind of bugs and mistakes.
